

Continuing strong relationships

OVER THE YEARS, Metso has taken a range of machines from GLTC including diesel and electric forklifts and reach trucks for use in Metso's manufacturing, foundry and warehouse operations. Its latest order was for five Doosan forklifts, which included two Doosan D25 Diesel forklifts, two Doosan D30 forklifts and one Doosan D45 BR16JW forklift.

Patrick Barber, GLTC national sales manager is genuinely proud of his company's relationship with Metso. "Metso's continued support of our company is an important endorsement for us. It is one of South Africa's leading industrial companies supplying crushing solutions to most of the best-known mines in the country. It is also part of the global Metso Corporation," says Barber.

Sean O'Connor, GM at Metso MCT in Vereeniging, Gauteng concurred. "It is the type of relationship that adds significant value to a business and its overall efficiency," he says.

GLTC is the sole distributor in South Africa of some of the most famous brands in the industry including Doosan and Crown, two of the products used extensively by Metso.

Doosan is a world-class manufacturer of one of the finest selections of lift trucks. The company's 'brakes for life' system - an oil-cooled disc brake system, which eliminates all outside contamination by any humid, abra-

Goscor Lift Truck Company (GLTC) has a record of forming strong and lasting relationships with its clients. One of these is Metso Mining & Construction Technology (MCT), which has used GLTC for the past 11 years for its forklift and other warehouse logistics equipment.

sive or corrosive dust particles, significantly reduces operating costs and GLTC offers a 60-month, unlimited hours guarantee on it.

With manufacturing facilities globally, Crown is the world leader in the manufacture of electric materials handling equipment. Catering to the ever-changing demands of warehousing, Crown has equipment to suit every conceivable warehouse application.
