

Goscor delivers

Goscor Rental, part of the Goscor Group of companies, has once again proved its ability to react swiftly to clients' needs.

This time it involved organising delivery of Daewoo forklifts to various centres throughout the country for promotional company 360 Degrees.

At its recent launch of the new Chevy Spark, 360 Degrees required two 2.5t Doosan diesel forklifts to be delivered to venues around the country, namely the Durban Exhibition Centre, the Brackenrite Centre in Cape Town, Nasrec in Johannesburg and to the old General Motors building in Port Elizabeth.

Greg Venter, Goscor Rental operations manager, says that his team had to react quickly and efficiently in order to be able to successfully fulfil this request. Sales manager Barbara McCarthy, who has been in the industry for more than eight years, says that it is often difficult for customers to be able to deal with

just one person and get the job done in centres across the length and breadth of the country. "We are particularly proud that we were able to do this for 360 Degrees."

Robert Kennedy 360 Degrees production head was equally enthusiastic. He said it was an "absolute pleasure dealing with all the staff at Goscor. Everyone was helpful, friendly, professional and always on time. Not a single problem was encountered on this sizeable job and it was a relief to work with a company that went the extra mile to completely take the pressure off us. Should we ever have the opportunity to work with them again in the future, we will do so without hesitation," he said.

In addition to its cleaning division, Goscor Rental provides forklift trucks on a contractual basis from its operations in Chloorkop in Kempton Park. All products and services are backed up by the Goscor group's nationwide parts and service network.

ABOUT THE GOSCOR GROUP

Founded in South Africa, the Goscor Group has been supplying the local market with state-of-the-art industrial equipment and world-class solutions for the past 26 years. It consists of six key divisions, and is an exclusive distributor of leading and world-class brands of industrial equipment. Goscor employs 250 personnel and has a national footprint and distribution network, supplying to a blue chip customer base across various sectors of the market. Goscor was recently acquired by Imperial Holdings Limited, through its subsidiary AMH.
