

Industrial Sweepers

G O S C O R Rental Company (GRC) has announced that it now offers Elgin Crosswind industrial sweepers for rental.

The wipers' recirculating vacuum sweeper efficiently clean large flat paved areas like streets, parking lots and airport runways.

Their ergonomic design allows the operator to sweep in a safe, comfortable manner. Mounted on the short wheelbase chassis of either conventional or cab-over chassis, they are operated by simple rocker switches and come with a complete set of gauges.
