Trusted Equipment Solutions since 1984
Driven by innovation and agility, the Goscor Group is part of the Bud Group, a diversified business of scale and relevance.

Bud is an enablers platform that creates a permanent home in which our businesses can grow and develop to create long-term value across our chosen platforms: Chemicals and Minerals, Industrial Services, Building Materials and Financial Services.
Our Vision
To be the first choice supplier of world-class industrial and construction equipment.

Our Mission
We integrate world-class products with innovative solutions and professional support, thereby increasing customer productivity through consistent delivery on our commitments.

Our Core Values
Professionalism, Partnership, Passion, Integrity, Family Values, Entrepreneurship, Empowerment
Goscor Lift Truck Company, the first ISO and OHSAS accredited forklift company in South Africa, have established a powerful reputation of being one of the largest suppliers of forklifts and materials handling solutions to the Southern African market today.

The business has worked hard to build an impressive national footprint, fully stocked parts departments, 24/7 service operations and a full range of quality forklift for rental that are all backed by a state-of-the-art technical training facility. Product offering includes sales of new and used forklifts, servicing, parts supply and rental.

The company stocks a comprehensive range of electric, diesel, gas and hand-powered forklifts and to complement this offering, they have introduced a battery supply and handling division to ensure a complete materials handling equipment solution. Its outstanding growth has come through a commitment to adding value through consistent and integrated service excellence, with a team of dedicated professionals always striving to cultivate long-term relationships with their customers. Lowest total cost of ownership is what this company builds its foundation upon.

HIGH-QUALITY EARTHMOVING AND ROAD MACHINERY

Goscor Earthmoving is the sole distributor of SANY’s line of earthmoving and road machinery in South Africa. SANY has shown phenomenal growth globally and is now the world’s fifth-largest construction and related equipment manufacturer.

Our range consists of excavators, front-end loaders, graders and rollers. All of these machines use class-leading components, such as Isuzu and Cummins engines, Kawasaki pumps and DANA transmissions.

The Goscor Group has utilised its financial muscle to build a formidable level of aftermarket support nationwide, thus creating peace of mind for our customers when purchasing a SANY machine. Our network of branches ensures that customers always have access to our world-class service, which allows for rapid response times and minimal downtime.

In addition to this, Goscor Earthmoving offers tailored financial solutions to prospective customers, thereby providing access to our SANY machines at the lowest total cost of ownership.

Goscor Earthmoving Equipment
Goscor represents Bobcat, the world’s number one compact equipment manufacturer, in southern Africa.

Bobcat machines have a proven history of reliability and dependability over a period of almost 60 years. As the market leader in the southern African region, our high-quality range includes skidsteer loaders, TLB’s, mini-excavators and telehandlers. Bobcat machines are synonymous with work efficiency and get the job done quickly and effectively. Our extensive range of over 80 attachments includes sweepers, augers, trenchers and many, many more.

Our nationwide footprint of branches, coupled with our extensive spares / parts stockholding, ensures that our Bobcat customers are never without support. Indeed, the combination of the world-class Bobcat machines and Goscor’s class-leading support, has earned Bobcat the title of “One tough animal!”

Bobcat Equipment South Africa offers tailored financial solutions to prospective customers, thereby providing access to our Bobcat machines and attachments at the lowest total cost of ownership. In addition to this, we run our own short-term rental fleet of Bobcat machines and attachments, thus allowing those customers who don’t wish to make a purchase, to simply rent for shorter periods of time.
